

HR ANALYTICS DASHBOARD

Prepared by: Tanisha Milind Waghmare | Tools: Power BI, DAX, Excel

Dataset: 1,470 Employee Records | June 2026

1. EXECUTIVE SUMMARY

This report presents a comprehensive analysis of employee attrition and workforce trends across the organization. The analysis covers 1,470 employees spread across three departments — Human Resources, Research & Development, and Sales — with a focus on identifying high-risk attrition segments and enabling data-driven HR decisions.

The overall attrition rate stands at 16.12%, with 237 employees having left the organization. Key risk factors identified include overtime work, younger age groups (Under 25), specific job roles such as Sales Representative, and employees in the Life Sciences education field.

2. KEY PERFORMANCE INDICATORS

1,470 Total Employees	237 Attrition Count	16.12% Attrition Rate	1,233 Active Employees
37 yrs Avg. Employee Age	150 Male Attrition	87 Female Attrition	3 Departments

3. DEPARTMENT-WISE ATTRITION ANALYSIS

Department	Total	Active	Attrition Count	Attrition Rate
Sales	446	354	92	20.63%
R&D	961	828	133	13.84%
HR	63	51	12	19.05%

- Sales department has the highest attrition rate at 20.63% — 1 in 5 employees leave.
- R&D has the highest headcount (961) but a lower attrition rate of 13.84%.
- HR is the smallest department with 63 employees and 19.05% attrition — a concern given team size.

4. ATTRITION BY GENDER

Gender	Total	Active	Attrition	Attrition Rate
Male	882	732	150	17.01%
Female	588	501	87	14.80%

- Male employees have a higher attrition rate (17.01%) compared to female employees (14.80%).
- 150 male vs 87 female employees left — males account for 63.3% of total attrition.

5. ATTRITION BY AGE GROUP

Age Group	Employee Count	Risk Level
Under 25	97	● High Risk
25 - 34	554	⦿ Medium Risk
35 - 44	505	⦿ Lower Risk

45 - 54	245	● Lower Risk
Over 55	69	● Medium Risk

- Under 25 age group shows highest attrition risk — young employees leave earliest.
- 25-34 is the largest group (554 employees) and contributes most to attrition count.
- Attrition decreases significantly after age 35, suggesting mid-career employees are more stable.

6. ATTRITION BY JOB ROLE

Job Role	Total	Attrition	Attrition Rate
Sales Representative	83	33	39.76%
Human Resources	52	12	23.08%
Laboratory Technician	259	62	23.94%
Research Scientist	292	47	16.10%
Sales Executive	326	57	17.48%
Manager	102	5	4.90%
Research Director	80	2	2.50%

- Sales Representative has the highest attrition at 39.76% — nearly 2 in 5 leave.
- Laboratory Technicians (23.94%) and Human Resources (23.08%) are also high-risk roles.
- Managers and Research Directors show very low attrition — senior roles are more stable.

7. OVERTIME & ATTRITI

Overtime	Total	Active	Attrition	Attrition Rate
Yes	416	289	127	30.53%
No	1054	944	110	10.44%

- Employees working overtime have nearly 3x higher attrition rate (30.53% vs 10.44%).
- Overtime is one of the STRONGEST predictors of employee attrition in this dataset.
- Recommendation: Review overtime policies and introduce workload balancing measures.

8. EDUCATION FIELD-WISE ATTRITION

Education Field	Total	Attrition	Attrition Rate
Human Resources	27	7	25.93%
Technical Degree	132	32	24.24%
Marketing	159	35	22.01%
Life Sciences	606	89	14.69%
Medical	464	63	13.58%
Other	82	11	13.41%

- Human Resources and Technical Degree fields show highest attrition rates.
- Life Sciences is the largest group (606) with moderate attrition at 14.69%.

9. KEY FINDINGS & RECOMMENDATIONS

Critical Attrition Risks

- Sales Representatives have nearly 40% attrition — urgent intervention needed.
- Overtime employees are 3x more likely to leave — workload management is critical.
- Under-25 employees leave fastest — onboarding and engagement programs required.

Strategic Recommendations

- Implement flexible work policies to reduce overtime dependency in Sales.
- Create mentorship programs for employees Under 25 to improve retention.
- Conduct stay interviews with Laboratory Technicians — 2nd highest attrition role.
- Review compensation structure in Sales department — highest attrition rate (20.63%).
- Leverage low-attrition roles (Manager, Research Director) as internal career paths.

10. CONCLUSION

This HR Analytics report reveals that attrition is concentrated in specific departments, job roles, and employee segments. The Sales department, Sales Representatives, overtime workers, and younger employees under 25 represent the highest-risk groups. Addressing overtime policies, enhancing early-career engagement, and reviewing compensation in Sales are the most impactful levers for reducing the overall 16.12% attrition rate.

The interactive Power BI dashboard enables HR teams to drill down by department, gender, education field, and age group to monitor these metrics in real time and take proactive, data-driven action.
